DEPARTMENT OF COMPUTER SCIENCE

TO WHOMSOEVER IT MAY CONCERN

I am pleased to recommend Mr. Arvind Murthy who is applying for a Master's program at your university. I have known Arvind as a student of our college when I taught him the subjects of "Core and Advanced Java" and "Operating Systems" and supervised the practical sessions for Java.

Through my interactions with Arvind I have found that he has an excellent grasping power and logical bent of mind. He is a hard working and sincere student full of initiative and drive. During the practical sessions I came to form a favorable opinion of Arvind due to his good laboratory skills and capacity to practically implement theoretical knowledge.

Arvind had worked under my guidance on his mini-project 'A database Management System for a Book Store'. I have seen the diligence with which Arvind worked on the project and I was impressed by his perseverance.

Arvind used to take the initiative in satisfactorily completing all his assignments within the given time. He regularly frequented the library thus upgrading and adding to his technical abilities.

I sincerely believe that he deserves admission to your program to enable him to pursue higher studies. In view of his good track record, his zeal for learning and his commitment to his goal, I strongly recommend Arvind for admission at your University and also wish him the best for the future.
